

October is National Cybersecurity Awareness Month

Cybersecurity Tips

Keep a Clean Machine

- ✓ Keep security software current
- ✓ Utilize automatic software updates
- ✓ Protect all devices that connect to the Internet

Protect Your Personal Information

- ✓ Use long and strong passwords or passphrases
- ✓ Separate passwords for every account
- ✓ Keep passwords in a safe, secure place and change regularly
- ✓ Set privacy and security settings to your comfort level
- ✓ Enable stronger authentication
- ✓ Limit amount of personal information you share

Connect with Care

- ✓ ***When in doubt, throw it out***- Links in email, tweets, posts and online advertising
- ✓ If it looks suspicious, even if you know the source, delete or mark as spam
- ✓ When banking and shopping be sure site is security enabled (<https://>) http is not secure

Be Web Wise

- ✓ Keep current on ways to stay safe online
- ✓ Be wary of communications that ask you to act now, offer something that sounds too good or asks for personal information

Be a Good Online Citizen

- ✓ Practice good online habits
- ✓ Post only about others as you would want posted
